HTML/CSS/JAVASCRIPT
FRONTEND DEVELOPER
FOR INTERNATIONAL IT-START-UP

Searchgonzo is targeting to be the new and next-level product-search engine in the world-wide-web. Our search-engine is based on sophisticated tools ranging from tracking user-behavior to exploiting **artifical intelligence** to visualize and personalize user's shopping-experience. We are **always looking** out for **smart and driven people** that can strengthen our team.

We have currently **one** open vacancy for **a Frontend Developer.** The candidate will be **part of team** responsible for maintaining and developing our general Frontend and the whole Web UI. Further responsibilities may include:

• Developing structured and clean HTML/CSS Layers
• Integration of dynamic Content (Javascript)Implementing Social Media Plugins
• Maintaining Frontend Visuals
• Optimizing Webcontent and SEO performance
• Reporting and Documentation

SUCCESSFUL CANDIDATE'S IDEAL BACKGROUND:

Broad experience in HTML/CSS/Javascript and browser optimization techniques

• At least 2-3 Years of Commercial Experience in Web-development in various Projects
• A good grasp of Web-Design aspects also for mobile devices
• Ideally experience in Social Media Integration (Facebook, G+, etc. ...)
• Basic understanding of database programming (MySQL) , PHP, and Versioning (GIT or SVN)
• English language and being able to communicate effectively
• Working hands-on with team mates in Tarnów.

WE CAN OFFER:

• Unique and exciting opportunity to join an extremely ambitious and dynamic
  organisation with high potential.
• **Friendly experienced team** which is eager to exchange their knowledge.
• **Good and increasing** salary based on skills and productivity.
